Company Profile	01 - 02
Solutions	03 - 10
Hardware Systems	11 - 14
Global Deployment	15 - 20

Wisson Robotics is a global leader in soft embodied AI and aerial precision operations, pioneering the commercialization of Pliabot® Soft Robotics Technology. Its versatile soft robotic solutions are deployed across 100+ countries, regions, and cities, with aerial cleaning robots ranking No. 1 globally in sales in 2025.

* 2025 global sales ranking based on third-party market research.

Solution Architecture
Product Process Flowchart

Core Tech | Pliabot® Ultra-Close Flexible Water Squeegee Technology

Powered by Wisson's unique Pliabot® Embodied AI architecture, integrating soft robotic joints and neural AI: Featuring proprietary Ultra-Close Flexible Water Squeegee Technology — operating at an ultra-close, near-zero distance with a 40° downward-angled fan-shaped spray of medical-grade pure water, mimicking the downward scrubbing motion of the human hand while simultaneously rinsing and collecting runoff to achieve safe, eco-friendly, uniform, and efficient smart cleaning.

Pliabot® Soft Robotic Joints

Dynamic Intelligent Control
Water Treatment System

Ultimate Safety

From Low-rise Buildings to Skyscrapers

0–250m Native Safe Operation

Powerful Cleaning

Both Soft Wash and Power Wash

10× Force Application at Near-Zero Distance

Precision Cleaning

Adapts to Irregular Surfaces

±30° Real-Time Vertical Pitch Control

Surface-Safe & Eco-Friendly

No Damage to Surfaces or Environment

TDS <10 Medical-Grade Pure Water

Uniform & Fast

Consistent & Splash-free Cleaning

High-Force 40° Fan-Shaped Cleaning

Multiply Efficiency

Verified Productivity Gains with Cost Reduction

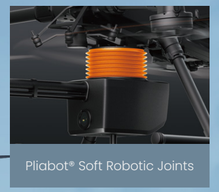

6× Verified Efficiency Increase

Ultimate Safety

From Low-rise Buildings to Skyscrapers

0–250m Native Safe Operation

Real-Time Intelligent Protection Against 20+ Aerial Risks & Disturbances

Pliabot® Soft Robotic Joints

Pliabot® APEX Workstation

DJI M400

3 m/s
High-Speed Smart Active Tracking

200 Hz
Barometric Disturbance Monitoring

50 Hz
Angular Motion Monitoring

73%
Peak Sway Amplitude Eliminated

88%
Peak Jitter Eliminated

50N
Adaptive Collision Buffering

Powerful Cleaning

Both Soft Wash and Power Wash

10× Force Application at Near-Zero Distance

Ultra-Close Safe Cleaning for Maximum Surface Impact.

Near-Zero-Distance High-Impact Spray
Up to 10× Surface Impact Force*

1–10× Adjustable Force
From Soft to Power Wash

3 Effective Spray Modes
Solid Stream | Fan-Shaped | Multi-Angle

*Calculated based on reducing spray distance from 1 m to 10 cm.

Wisson P3

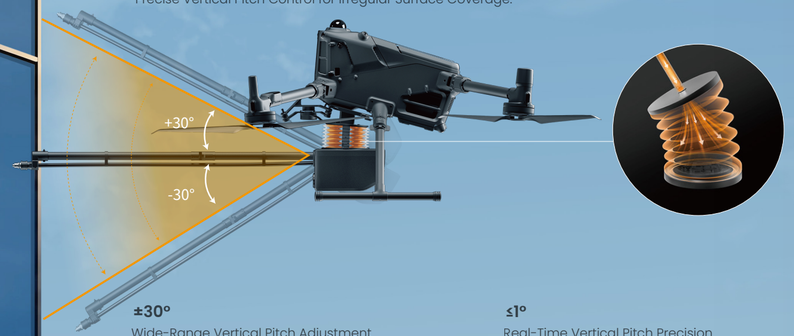

others

Precision Cleaning

Adapts to Irregular Surfaces

±30° Real-Time Vertical Pitch Control

Precise Vertical Pitch Control for Irregular Surface Coverage.

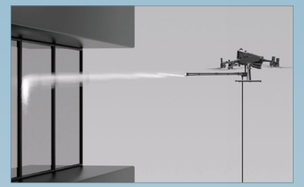

±30°
Wide-Range Vertical Pitch Adjustment

≤1°
Real-Time Vertical Pitch Precision

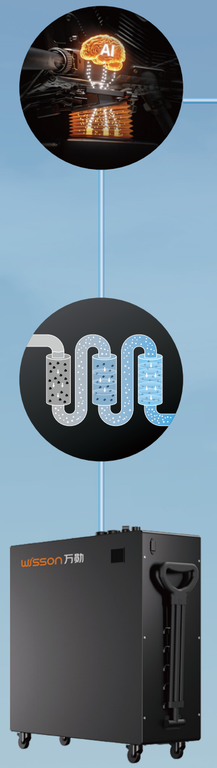

-30°
Downward Gravity-Assisted Water Collection

Wisson P3

others

Surface-Safe & Eco-Friendly

No Damage to Surfaces or Environment

TDS <10 Medical-Grade Pure Water

Pure Water for Surface-Safe and No Water Residual.

100% Asset-Safe Operation
No aggressive acids. No corrosive damage

99.9% Water Residual Removal Rate
No wiping needed. Natural air drying

100% Eco-friendly Operation
Medical-grade pure water. Minimal secondary contamination

Wisson P3

others

Uniform & Fast

Consistent & Splash-free Cleaning

High-Force 40° Fan-Shaped Cleaning

Ultra-Close for Controlled and Uniform Cleaning Result.

0~40° Four Spray Shapes
Enabled by ultra-close high-force impact

Zero-Splash & Uniform Cleaning
Consistent cleaning result with no water residue

Wisson P3

others

Multiply Efficiency

Verified Productivity Gains with Cost Reduction

6× Verified Efficiency Increase

More Coverage, less rework and higher productivity.

40° Wide Fan-shaped Spray
Greater coverage than conventional water-column cleaning

N-in-1 Expandable Platform
Pliabot® Embodied AI enables future building maintenance applications

Products P3 Standard Version

AP3-P3 Pliabot® Aerial Tethered Cleaning Robot

- Native collision safety of Pliabot® joints – Enables ultra-close operation, ensuring pressure while delivering high-efficiency wide spraying
- Haptic AI – Eliminates flight disturbances
- Pliabot® pneumatic control – 60° vertical direction control for refined spraying
- IP55 waterproof rating
- Passed various tests for vibration, high-low temperature storage, dustproof and waterproof, and salt spray
- Bionic Pliabot® Water Squeegee Technology, safe & effective cleaning

1. Foam Nozzle ×2
2. High-Pressure Nozzle ×2
3. Hose Connector ×10
4. Y-Type 3-Way Valve ×2
5. 1/2" to 3/4" Reducing Adapter ×2
6. Quick-Release Bracket(M400) ×1
7. Hex Wrench ×1
8. Socket Head Cap Screw ×8
9. User Manual ×1
10. Warranty Card ×1
11. Quality Certificate ×1
12. PTFE Tape ×1
13. Metal Quick Connector ×2
14. Adapter ×2
15. 3/4" Water Intake Hose ×3
16. UAV Propeller Transport Foam ×1
17. Power Cable ×1
18. 3/4" to 1" Reducing Adapter ×2
19. Motor Power Adapter ×1
20. High Pressure Pipe Reel ×1
21. High Pressure Hose（70m） ×1
22. M400 Propeller Guard ×1
23. EVA Foam Tape ×1
24. High Pressure Hose（10m） ×2
25. Foldable Water Bucket ×2
26. Measuring Cylinder ×1
27. Wooden Case-C1 ×1

Real-World Validation

Powered by our in-house cleaning service teams, our equipment is continuously stress-tested across millions of square meters

Ensures our hardware is built on daily operational feedback, delivering unmatched field stability and durability

Trusted by numerous Fortune 500 and industry-leading companies

For more key client lists and case studies, please refer to the official website

Real-World Validation

- We don't just sell hardware; we provide complete, field-tested Standard Operating Procedures (SOPs).
- Includes safety protocols, site setup, flight path planning, and dynamic water consumption management.

1 **Project Initiation**

Requirement connection and preliminary assessment

2 **On-Site In-Depth Work**

Detailed site survey and plan coordination

3 **Trust Establishment**

Test cleaning demonstration and client confirmation

4 **Comprehensive Execution**

Formal Operation and Emergency Response

- On-Site Protection & Enclosure
- Equipment Deployment & Daily Operation Safety Meeting
- Cleaning Operation: Efficient Flight
- On-Site Cleaning and Restoration

5 **Successful Completion**

Acceptance Approval and Business Expansion

Global Partner Enablement

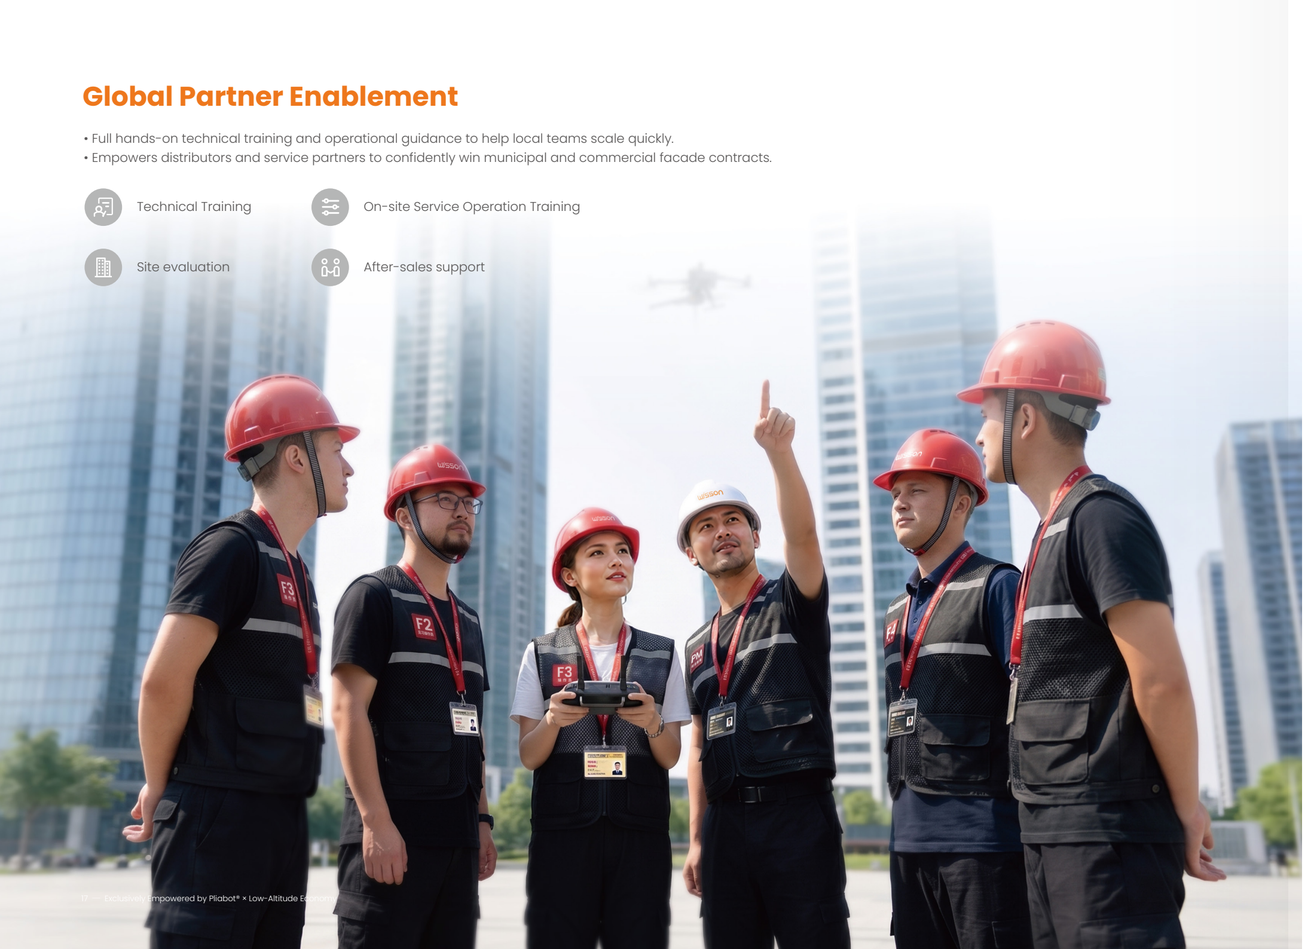

- Full hands-on technical training and operational guidance to help local teams scale quickly.
- Empowers distributors and service partners to confidently win municipal and commercial facade contracts.
